

Education

- | | |
|---|----------------------------------|
| • VIT Bhopal University
Bachelor of Technology in Computer Science and Engineering - 7.48 CGPA | Bhopal, MP
Aug. 2023–May 2027 |
| • Sunbeam School Bhagwanpur, Varanasi
Class 12 th - 75.4% | Varanasi, UP
2022 |
| • St. Mary's Convent School
Class 10 th - 87.4% | Mughalsarai, UP
2020 |

Projects

- Elder Connect
 - Developed a cross-platform **mobile application** to bridge the gap between elderly citizens, NGOs, and volunteers, facilitating efficient delivery of medicine and essential services.
 - Engineered a robust **RESTful API** using **Node.js** and **Express**, featuring **Role-Based Access Control (RBAC)** to manage permissions secure workflows for Admins, NGOs, Volunteers, and Elders.
 - Implemented a seamless request management system allowing elders to raise emergency or service requests, which are **dynamically routed to NGOs for volunteer assignment**.
 - Integrated **Cloudinary** for scalable **image storage** and **MongoDB** for complex data modeling of user profiles, tasks, and service history.
 - Built a responsive mobile UI with **React Native (Expo)**, utilizing React Navigation for intuitive user flows and Axios for optimized data fetching.
- CodeCollab
 - Built a real-time collaborative code editor, enabling multiple users to simultaneously edit files and communicate via an integrated live chat powered by WebSockets.
 - Implemented secure session-based authentication using **Express, MongoDB, and connect-mongo with Zod-validated API endpoints, guarded routes, and JWT authentication**.
 - Built modular React architecture (**Context + custom hooks + React Query**) for state isolation (auth, editor, files, chat) and predictable data flow.
 - Designed RESTful API layer (**Express + Mongoose**) for users, rooms, files, and chat messages.

Hackathons

- **IIC Hackathon**
 - Contributed as a **Frontend Developer** in a team that reached the final stage of the **IIC Hackathon**.
 - This hackathon was conducted in **Manipal University, Jaipur**.
- **Part of a SIH team** - Worked as a **Frontend developer** in **re-innovating a government website**. Qualified first two internal rounds.

Skills

- Languages : Python, JavaScript, HTML, CSS, C++, Java
- Framework : React, React Native, Node.js, Express, Redux Toolkit
- Database : MongoDB, SQL
- Technologies : AWS, React
